# GIFTS OF THE PRIMEVAL FOREST

Coconut

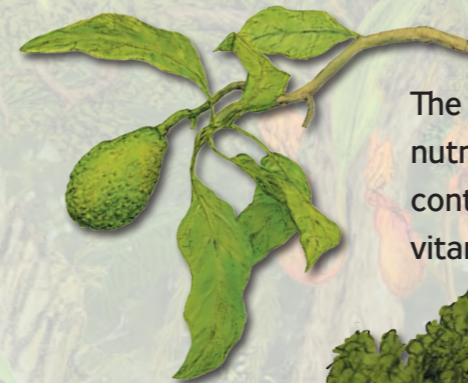

Cocoa beans are an important raw material in the production of chocolate.

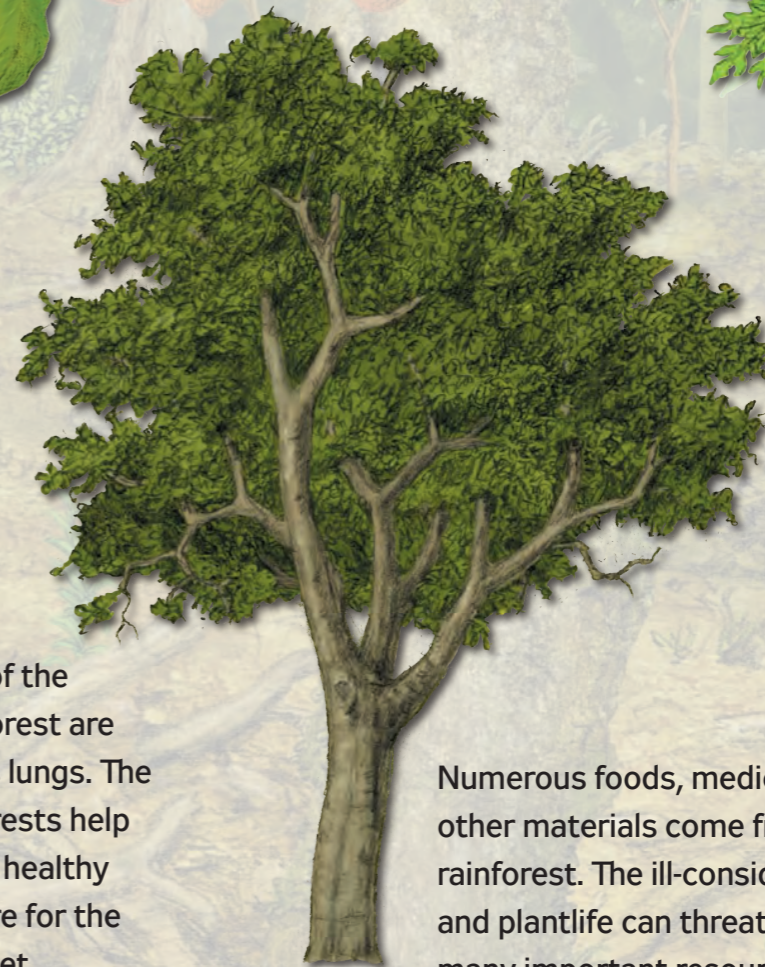

The pods of the vanilla orchid are used in the production of spices.

A banana tree in bloom, with ripening fruit.

The avocado is nutritious and contains many vitamins.

The trees of the primeval forest are the Earth's lungs. The tropical forests help maintain a healthy atmosphere for the whole planet.

The Carica papaya produces edible fruit and is used in natural healing.

Numerous foods, medicines, spices and other materials come from the tropical rainforest. The ill-considered felling of trees and plantlife can threaten and even destroy many important resources.

The Harpy eagle is a swift and much-feared predator. With its mighty claws it is able to hunt and kill monkeys.

Although it does not look like one, the capybara is an excellent swimmer. It is the largest living species of rodent.

## THE AMAZON RAINFOREST

Owing to its great beak, the Toco toucan is a rather awkward flyer.

A colourful jewel of the primeval forest, the Scarlet Macaw grows to almost one metre in length.

This Scarlet Ibis is resting on a giant leaf of the Victoria plant.

The mata mata lives in shallow waters. It feeds on small fish, which it sucks in swiftly using its strong neck.

# ANIMALS OF THE JUNGLE

Thread carefully, turn the pages watchfully, the secret of jungle guards many mysterious and beautiful animals. Reveal the individual parts of jungle, turn the pages of the book on which you will find the most interesting facts from life of animals and plants in the deep jungle.
