

THE MYSTERY OF THE MUMMY

The mummy

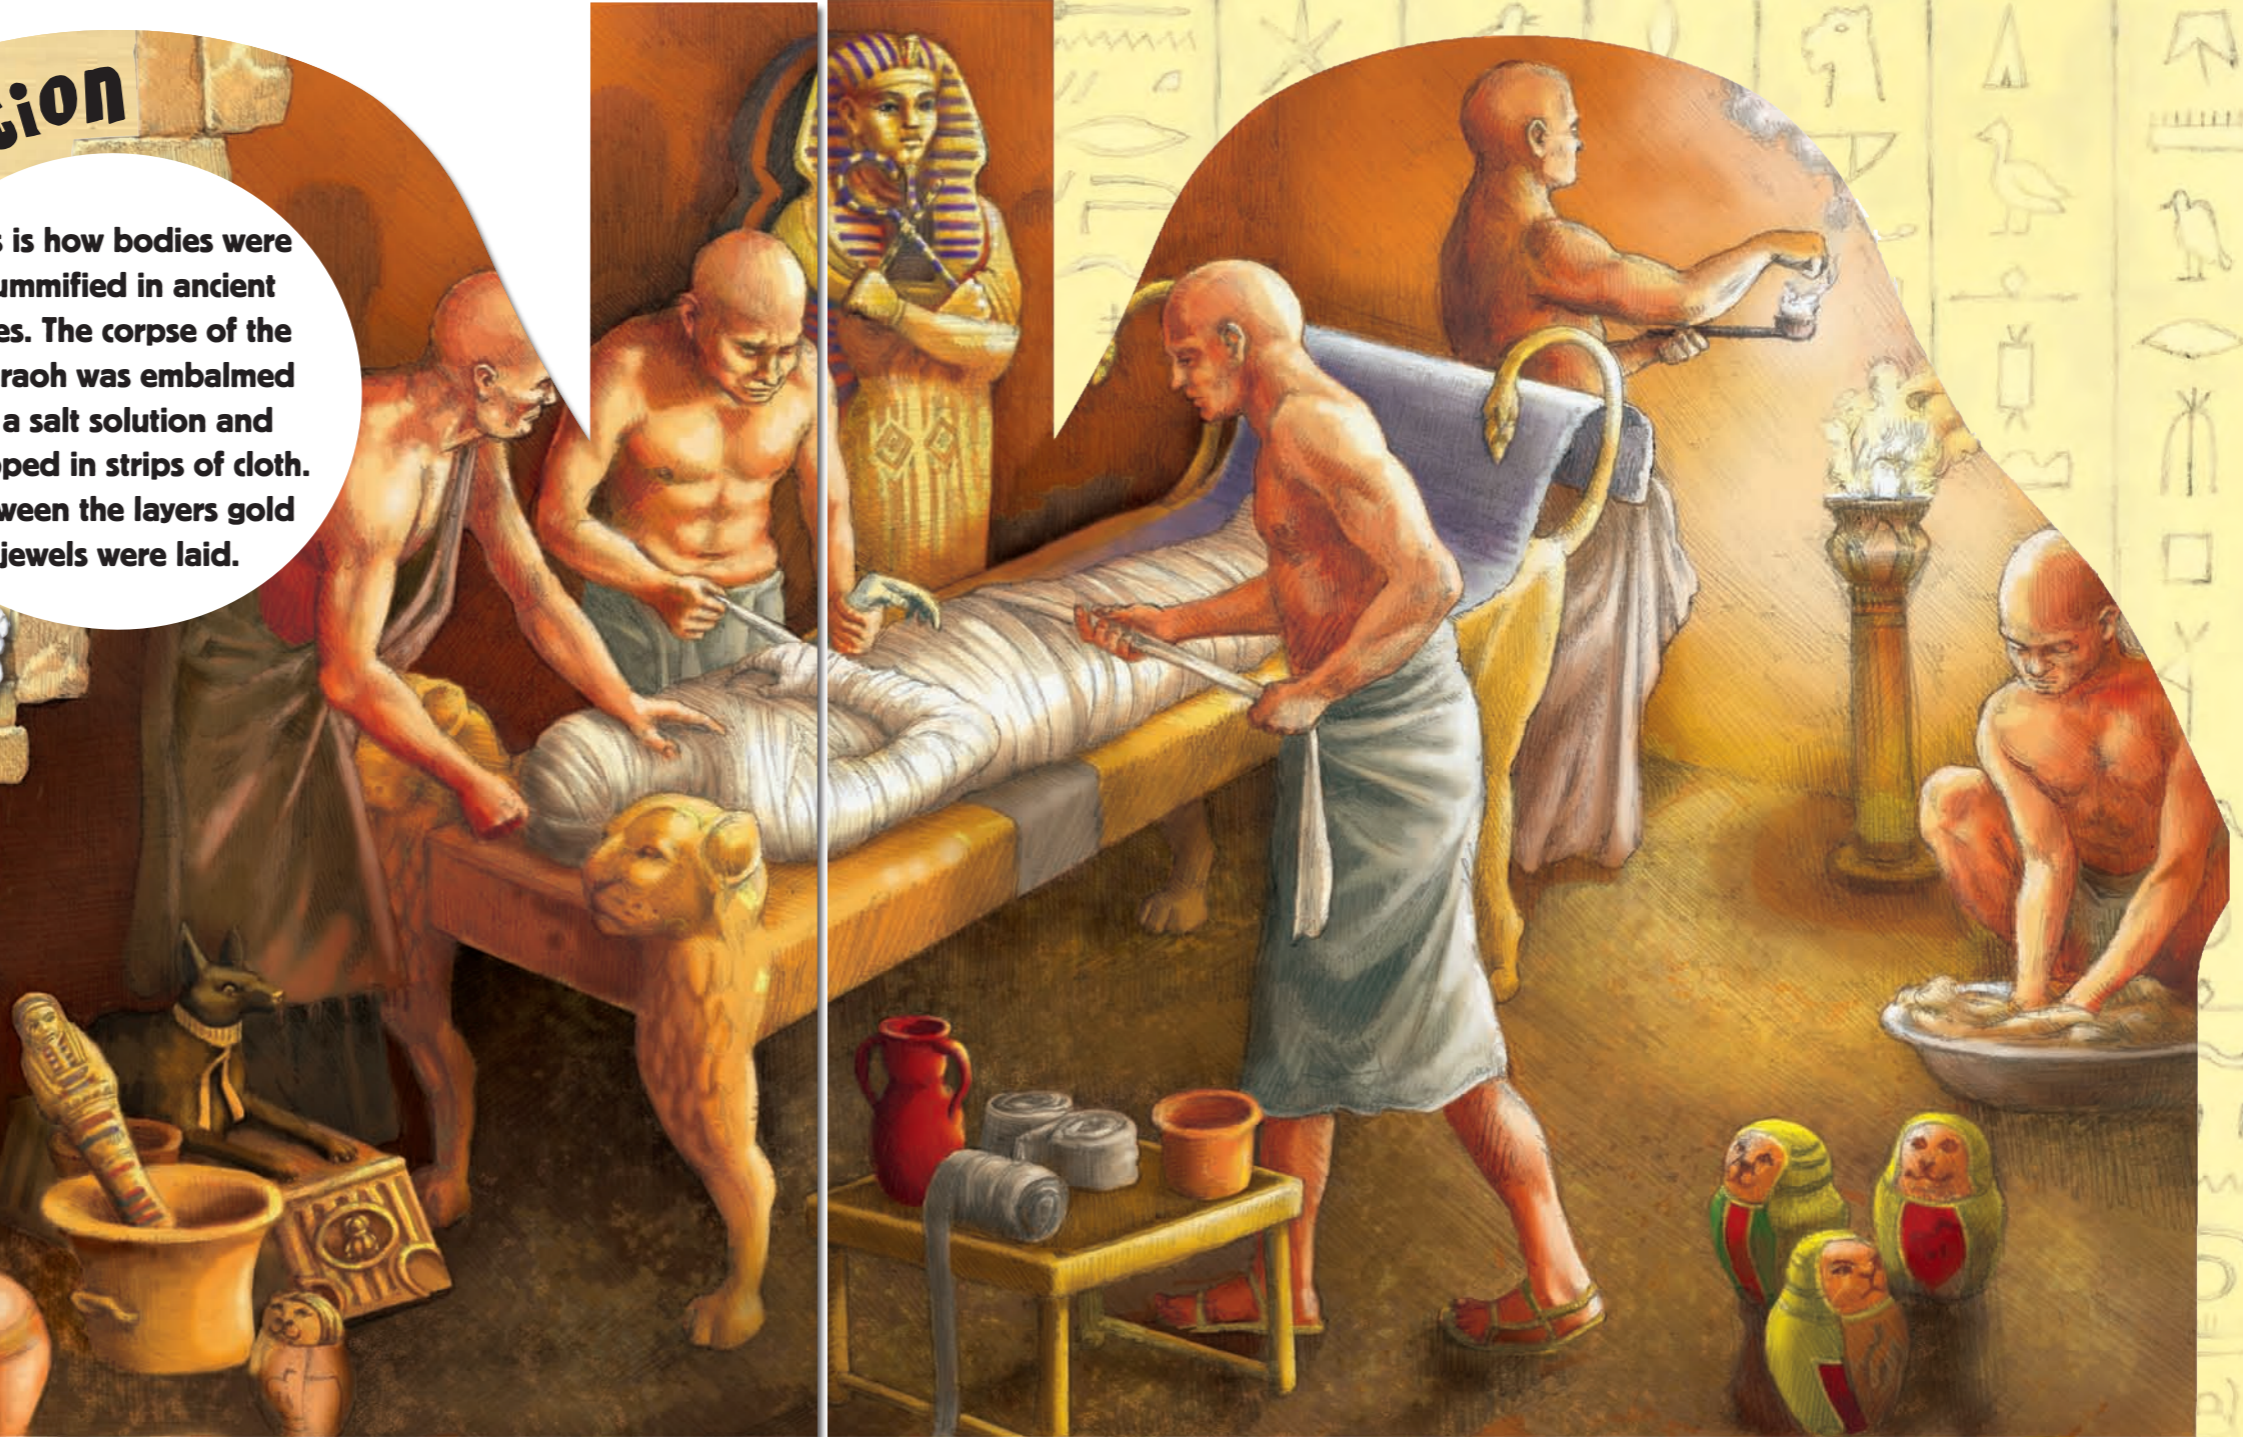

Phew! You had me going there. You can stop worrying now, he's a friend of mine. His name's Somekhamun and I expect he'll tell us something about Egypt.

Hi, Catamun. I hope I didn't scare you too much.

# Mummification

This is how bodies were mummified in ancient times. The corpse of the pharaoh was embalmed in a salt solution and wrapped in strips of cloth. Between the layers gold jewels were laid.

# THE MYSTERY OF THE MUMMY

Are you brave? Have you got what it takes to overcome your fear? Is no danger too great for you? If the answer to these questions is yes, then come with Mickamon the Egyptian cat to the mysterious tomb where a mummy has been waiting hundreds of years for its release. But take great care, because ...

But there's no need to be afraid, really: the mummy is not as terrifying as at first it may seem. In the end it'll even tell you something about mummification and the tombs of the pharaohs.
