THE MOST BEAUTIFUL CONSTRUCTIONS IN EGYPT
Egyptians were highly skilled workmen and built beautiful construc-
tions on the banks of the river Nile to honor gods and pharaohs.

The Egyptian erected high columns called obelisks on many places. Some of them can be found also in the European countries.

Here you can see how the huge stone blocks were erected.

Sand from a hole spilled and obelisk slowly sunk into its base.

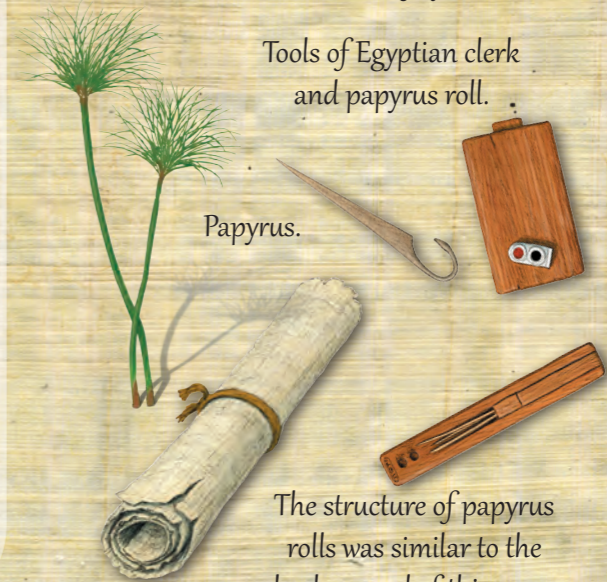

LETTERS

Papyrus, the predecessor to modern paper, were made from a plant that grown on the banks of the Nile River.

Egyptian letters were very complicated and consisted ridiculous number of symbols.

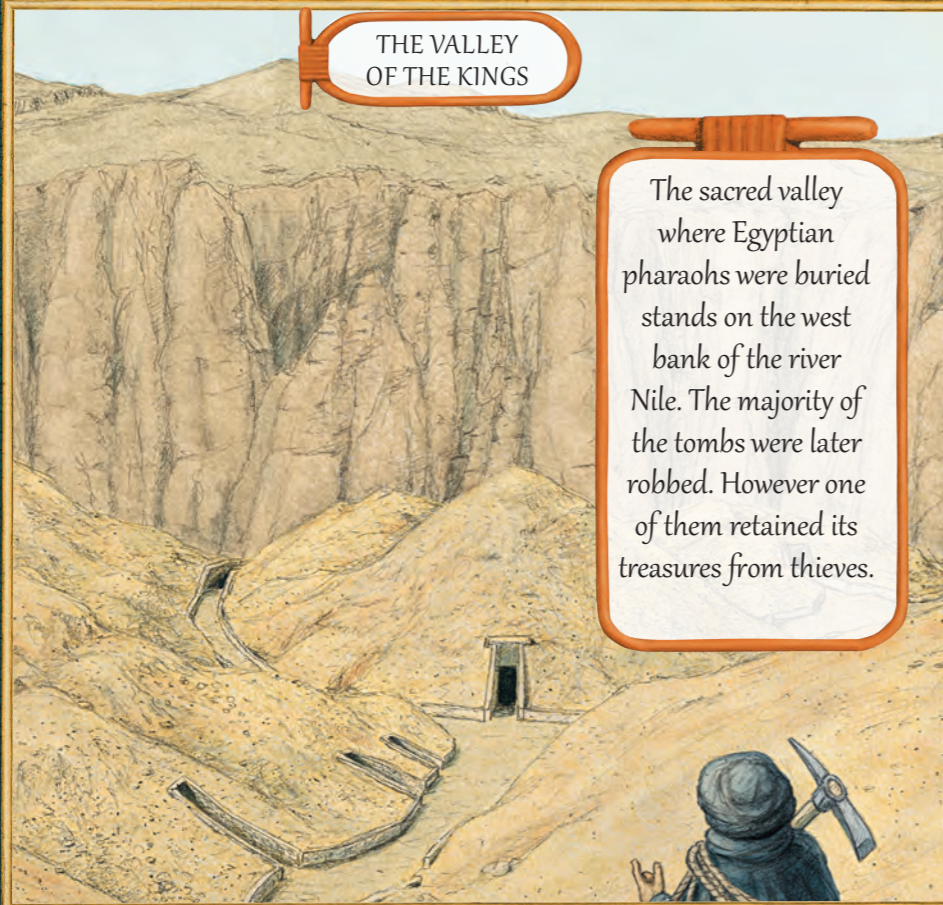

Tools of Egyptian clerk and papyrus roll.

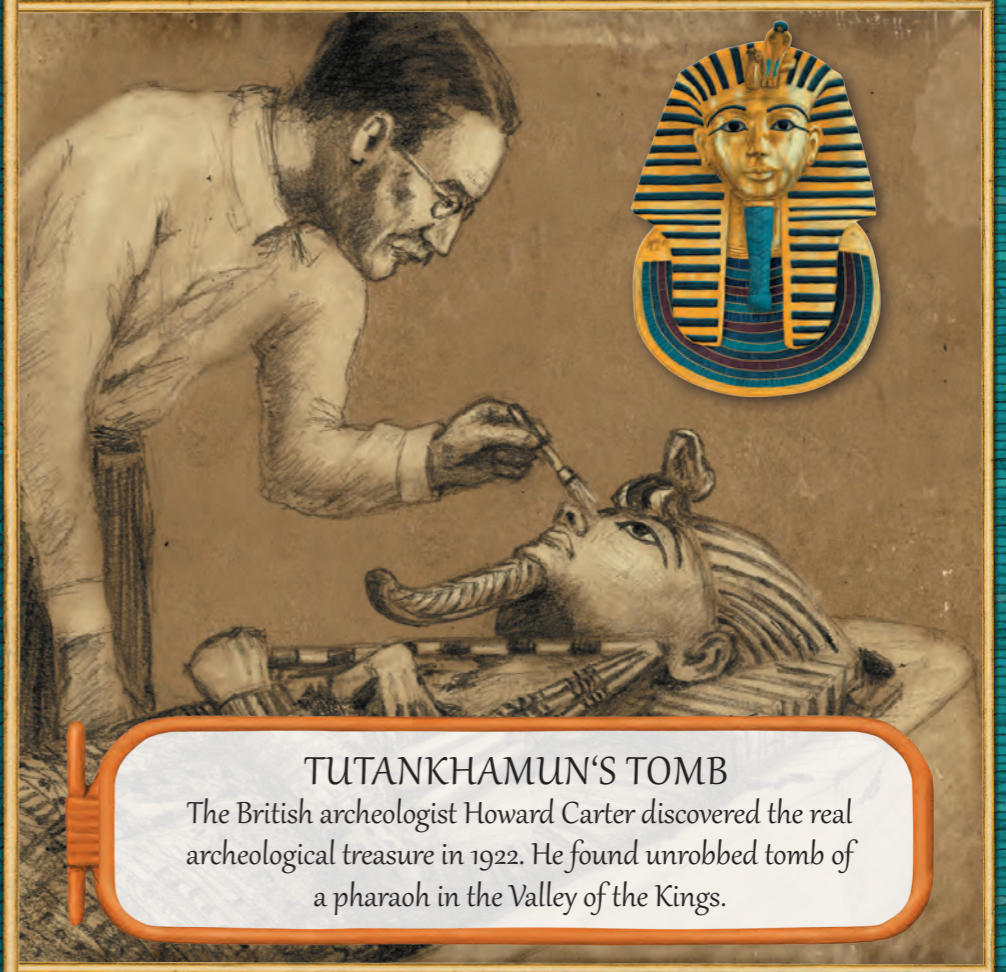

Papyrus.

The structure of papyrus rolls was similar to the background of this page.

THE VALLEY OF THE KINGS

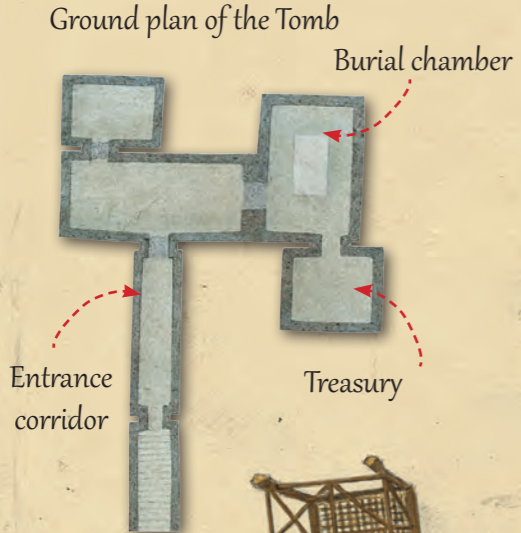

The sacred valley where Egyptian pharaohs were buried stands on the west bank of the river Nile. The majority of the tombs were later robbed. However one of them retained its treasures from thieves.

TUTANKHAMUN'S TOMB

The British archeologist Howard Carter discovered the real archeological treasure in 1922. He found unrobbed tomb of a pharaoh in the Valley of the Kings.

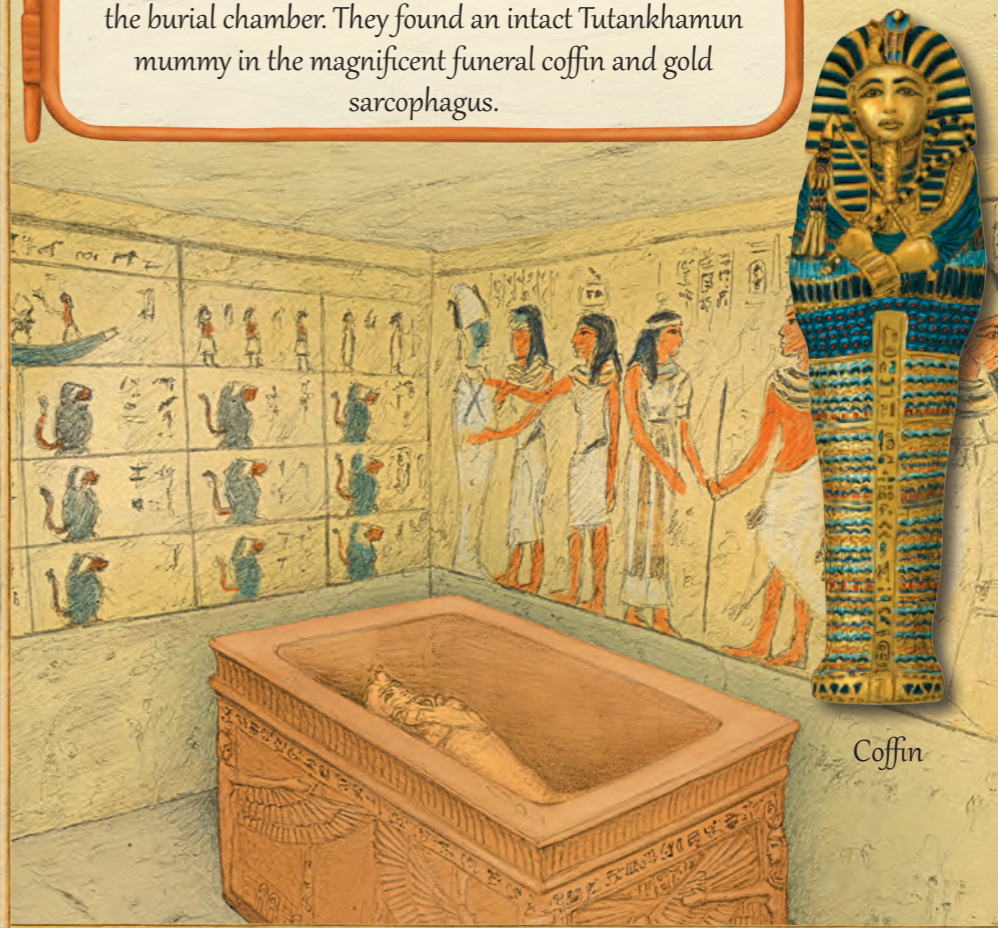

Ground plan of the Tomb

The large number of valuable Egyptian treasures was found in the tomb, for example also this jewelry in the shape of scarabs.

However the biggest surprise awaited archaeologists in the burial chamber. They found an intact Tutankhamun mummy in the magnificent funeral coffin and gold sarcophagus.
