IN THE MIDDLE OF SUMMER

Sammie the stork has just grown enough for his flying hat to fit him when his mom and dad told him: "Come Sammie, today we will teach you how to fly!"

PREPARATIONS FOR A JOURNEY

Sammie's flying is improving greatly every day. But why are his parents and all their neighbours always talking about a journey? Uncle Rudolf has been studying maps for a while now ...

SAMIE

the Stork

Summer days are almost over and little stork Samie, who just learned how to fly, is watching his parents, relatives and all stork neighbours in amazement. They are all preparing for a journey. Where are they heading? At the beginning of the story Samie does not know the answer himself. In the story, you'll follow storks on their journey to warmer places. You'll also find out why some birds fly away during winter and when they return home. Every double page contains small brainteasers that can be solved by lifting large flaps.
