Fire service:  
How may we help?

10

edika.

Hey, Ben, look what you've done!  
What are we going to do now?

Hello? Please come quickly  
to number 8 New Street. There's a fire.

112

Hello? Fire at the summerhouse  
at number 8 New Street. Immediate departure.

All aboard! And off we go!

Unroll the hoses! Prime the nozzles! And – water!

Look, Ben! What a smooth operation!

# Fire service: How may we help?

Fire! Angered by a mischievous cat called Felix, Ben the dog has gone for him – and knocked over a candle used by little scientist Tom in his chemistry experiment. Tom knows just what to do. He dials 150, and soon everything is under control. A fire engine arrives at their summerhouse within the next minute. Tom and Ben watch the hustle and bustle. Water shoots from the hoses. Before long, the fire is a thing of the past. And you'll never guess what – Tom gets a chance to see inside the cab of the fire engine!

## ABOUT THE BATTERIES

**PLEASE NOTE:** Before giving this product to a child, remove the sealing strip. Children should use this product only if the battery cover is securely in place. Only an adult should change the battery. The power supply must not be short-circuited.

**HANDLING:** This product contains 3 pcs 1.5 V AG10/LR54 button cells. Open the battery cover using a screwdriver. New batteries should be inserted by respecting the polarity markings. Put the cover back in place and secure it using a screwdriver. Do not overtighten. Never combine different battery types or new and used batteries. Use only the batteries recommended above (or similar). To avoid damage to the product, remove dead batteries immediately and dispose of them promptly.

**DISPOSAL:** As this product contains batteries, do not dispose of it with mixed waste. Directives on disposal of electrical and electronic appliances require such appliances to be disposed of separately to ensure their further management by the best available means of recycling and recovery. This approach minimizes negative impacts on the environment and human health resulting from pollution of soil and water by hazardous substances, plus it reduces resources needed for the manufacture of new products and pressure on landfill space. Please help us by not disposing of this product with mixed waste. The crossed-out wheellie bin symbols mean that this product should be disposed of as electrical or electronic waste, and that its batteries should be disposed of separately. When purchasing this product or batteries, an old, used product and/or dead batteries may be returned to the seller. For further ways of battery disposal, please contact your local authority.

**WARNING:** Not suitable for children under 3 years. Contains small parts. Danger of suffocation. Dispose of used batteries immediately. Keep new and used batteries out of reach of children. If you believe that batteries have been swallowed or inserted into any part of the body, seek medical help immediately.

**PLEASE NOTE:** Sound is activated by moving the button to the ON position. Sound is deactivated by moving the button to the OFF position. The batteries included are not rechargeable.
