

**PUT ON A
UNIFORM!**

Lenka Chytilová • Beatriz Castro

b4u publishing

As an **ASTRONAUT** you conduct experiments in space, gather data about the universe and photograph planets and other space objects. Put on a spacesuit!

Imagine you need to check the space station to see if there is any damage. What do you look like when you're working on this important mission?

An **EXPLORER** travels around the world, visits interesting places, and comes back and tells everybody about all the amazing countries. Look behind the bushes and you might find a place nobody has ever seen!

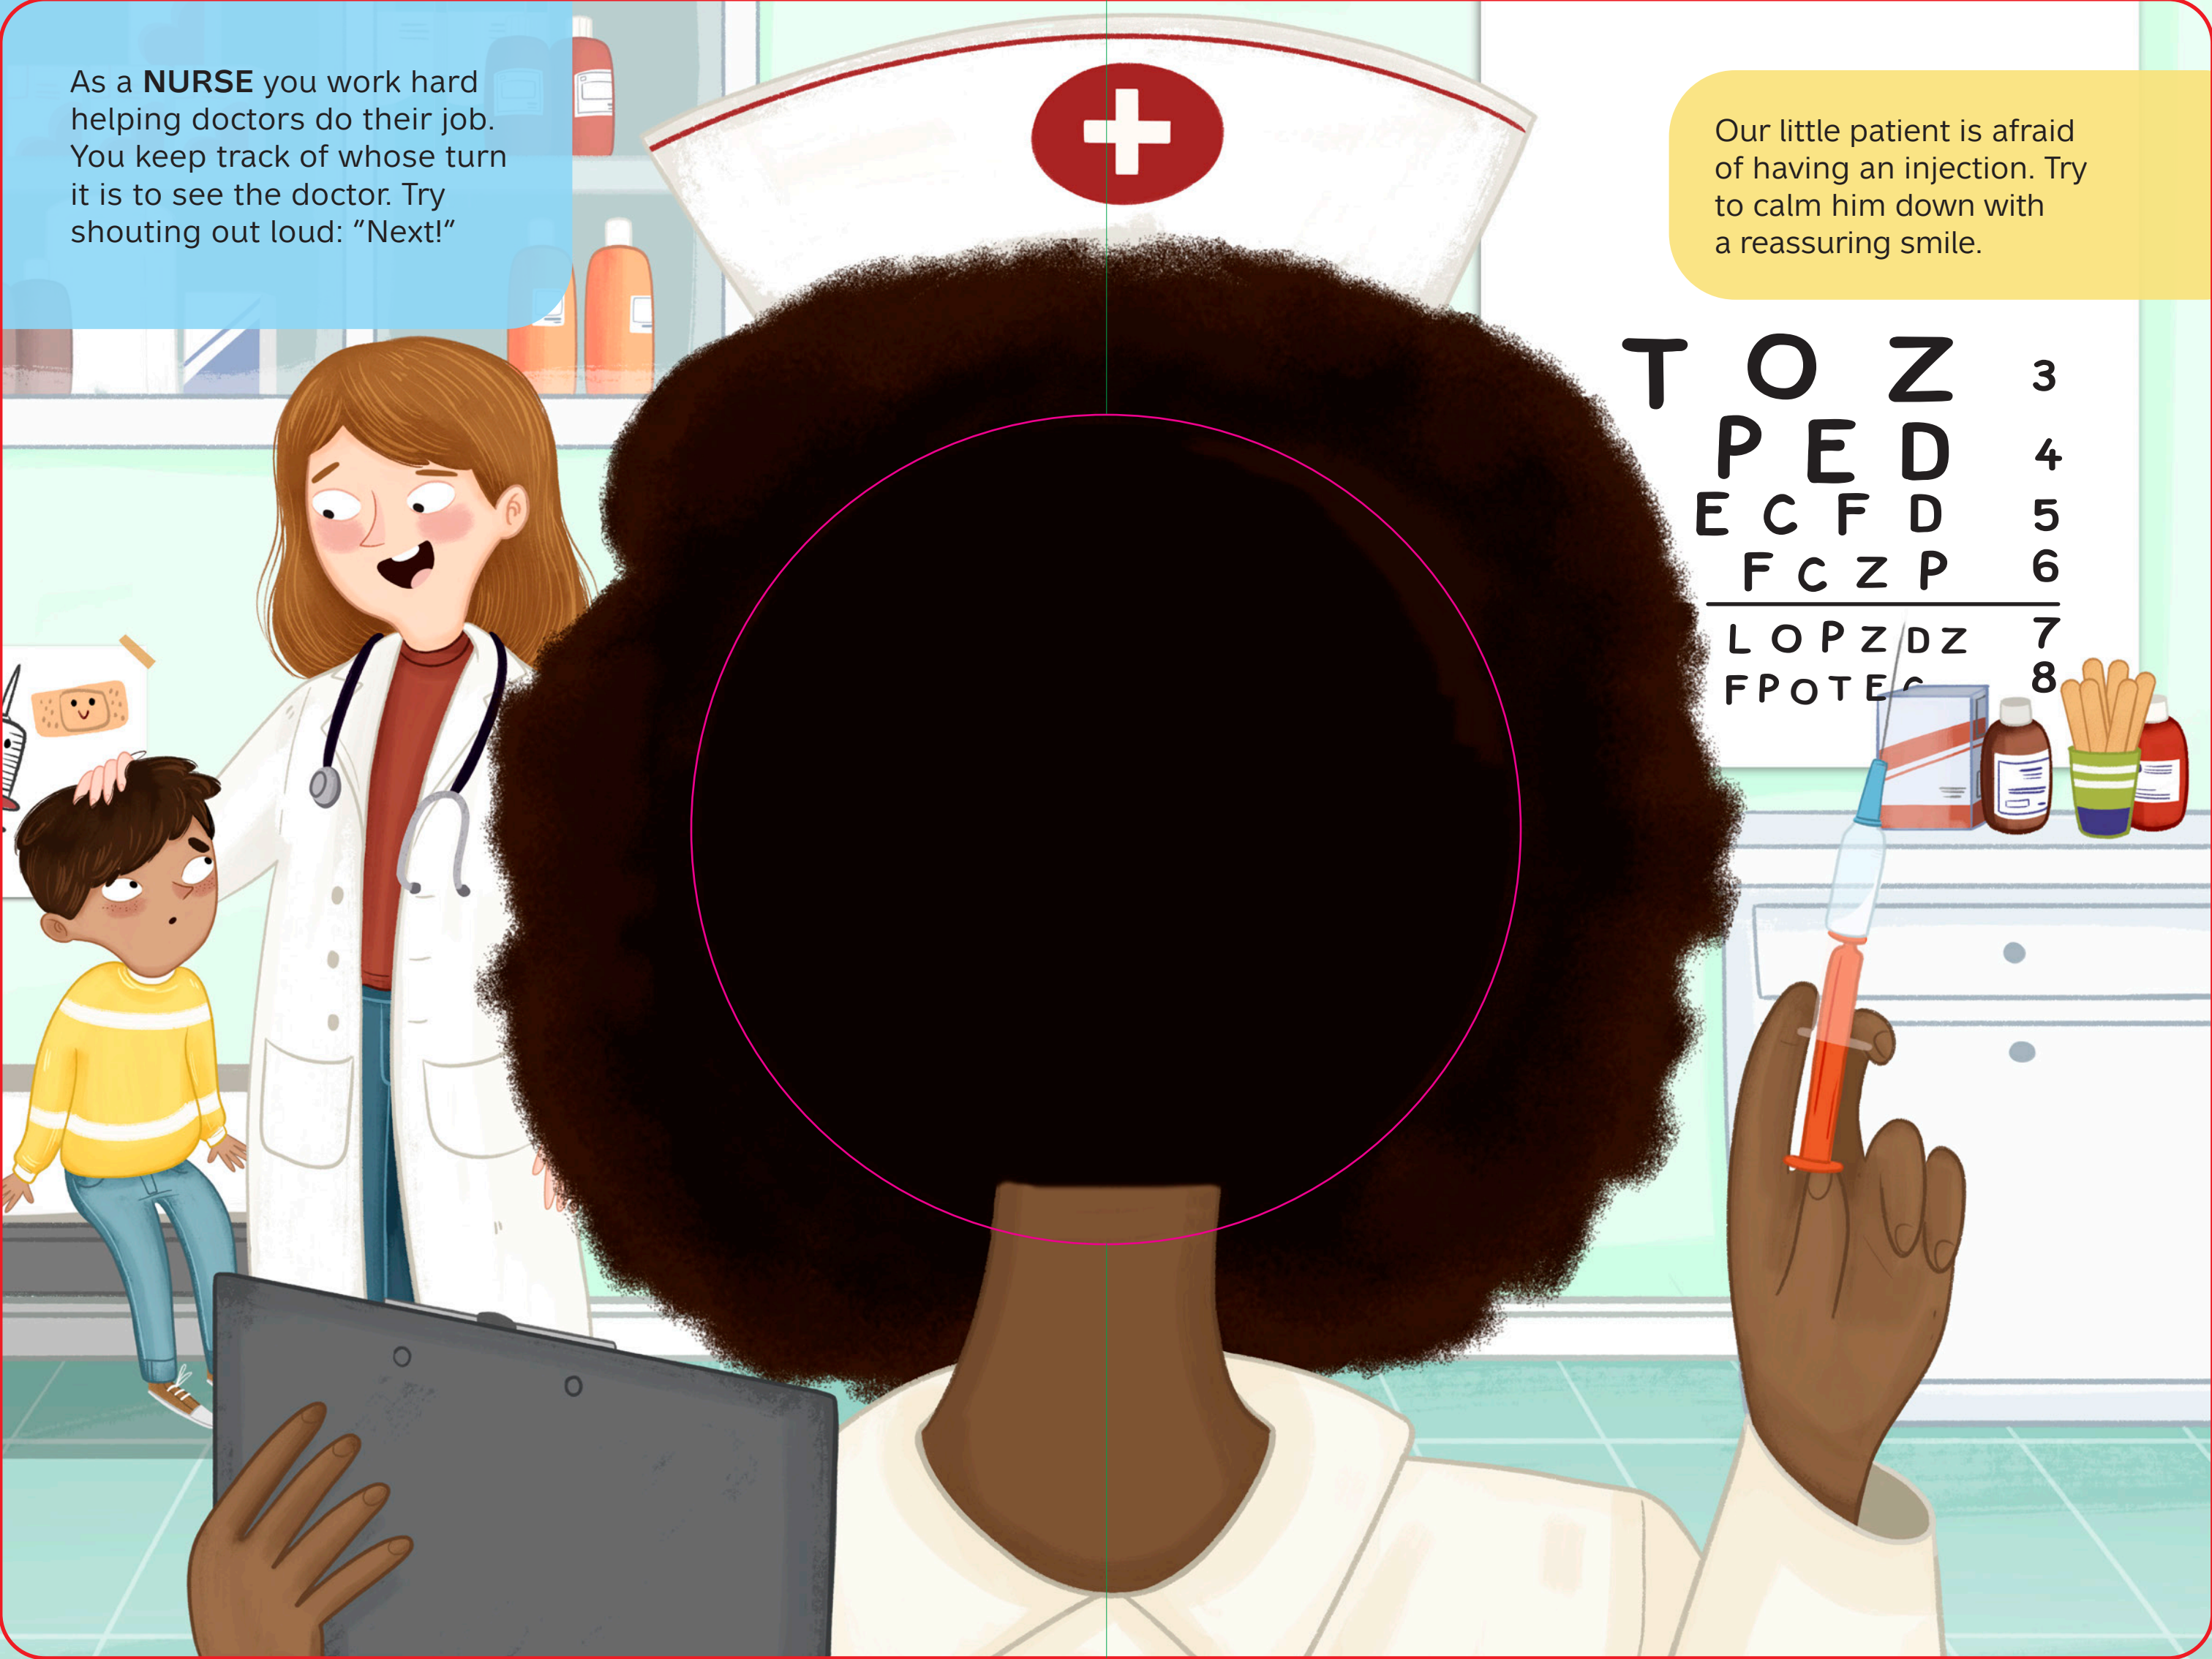

Be careful, don't turn around!
The jungle is full of all kinds of animals, like snakes. What do you look like when you come face to face with a venomous reptile?

As a **NURSE** you work hard helping doctors do their job. You keep track of whose turn it is to see the doctor. Try shouting out loud: "Next!"

Our little patient is afraid of having an injection. Try to calm him down with a reassuring smile.
