SPRING SPORTS

After a long winter, it is good to stretch your limbs...

... by running, hiking or roller-skating, for instance.

WHAT TO WEAR IN SPRING

T-shirt

trousers

baseball cap

low shoes

SPRING OR AUTUMN?

When it is spring where we are, it is not spring in some other parts of the world. **The season depends on where we happen to be.**

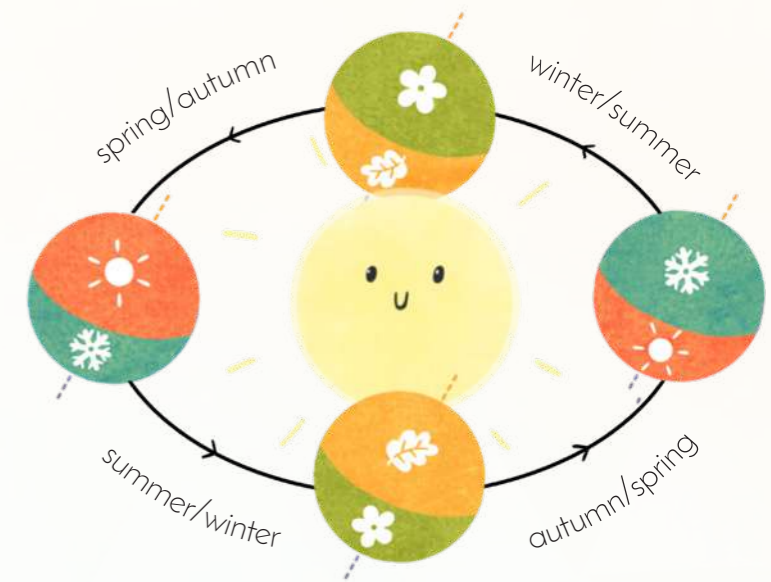

Birds are leaving for warmer climes in autumn and coming back in spring.

For dragons in the Southern Hemisphere, March brings autumn, with all autumnal duties and pleasures.

In the Northern Hemisphere, spring begins on 20 March. Look! It is spring for them right now.

Seasons change as Earth turns around the Sun.

SUMMER SPORTS

When we think of summer, we think of water to swim in. Nothing beats a good swim and splash in an outdoor pool ...

... or a game of football ...

... badminton ...

... or volleyball

AUTUMN FAREWELLS

In autumn, migratory birds prepare to fly from their homes to warmer climes. Do you see them sitting on the power lines, all ready to go?

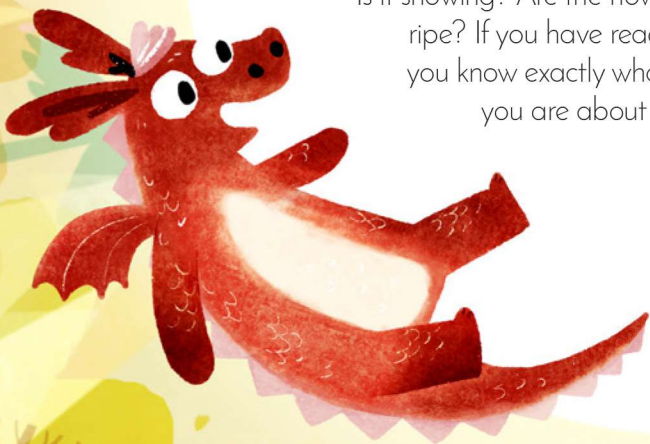

Animals that hibernate eat all they can, so building up reserves of fat to see them through the winter. Other animals stockpile food in their burrows and dens, and their fur thickens.

A Curious Dragon and the Seasons

Štěpánka Sekaninová • Linh Dao

Spring, summer, autumn, winter, spring again. And so it goes, forevermore. It's enough to make a little dragon's head spin. How do we know that spring is here? What makes winter winter? When can we bathe in an outdoor pool? When is it windy enough to fly a kite? If all this confuses you, don't worry: our cute little dragon and his birdie friend will reveal to all curious young readers the secrets of the seasons. Why do they alternate, how do they differ, and what is typical of each? Is it snowing? Are the flowers in bloom? Are the strawberries ripe? If you have read this book from start to finish, you know exactly what we are talking about. And if you are about to read it, you soon will.
