# THE BLUE PLANET

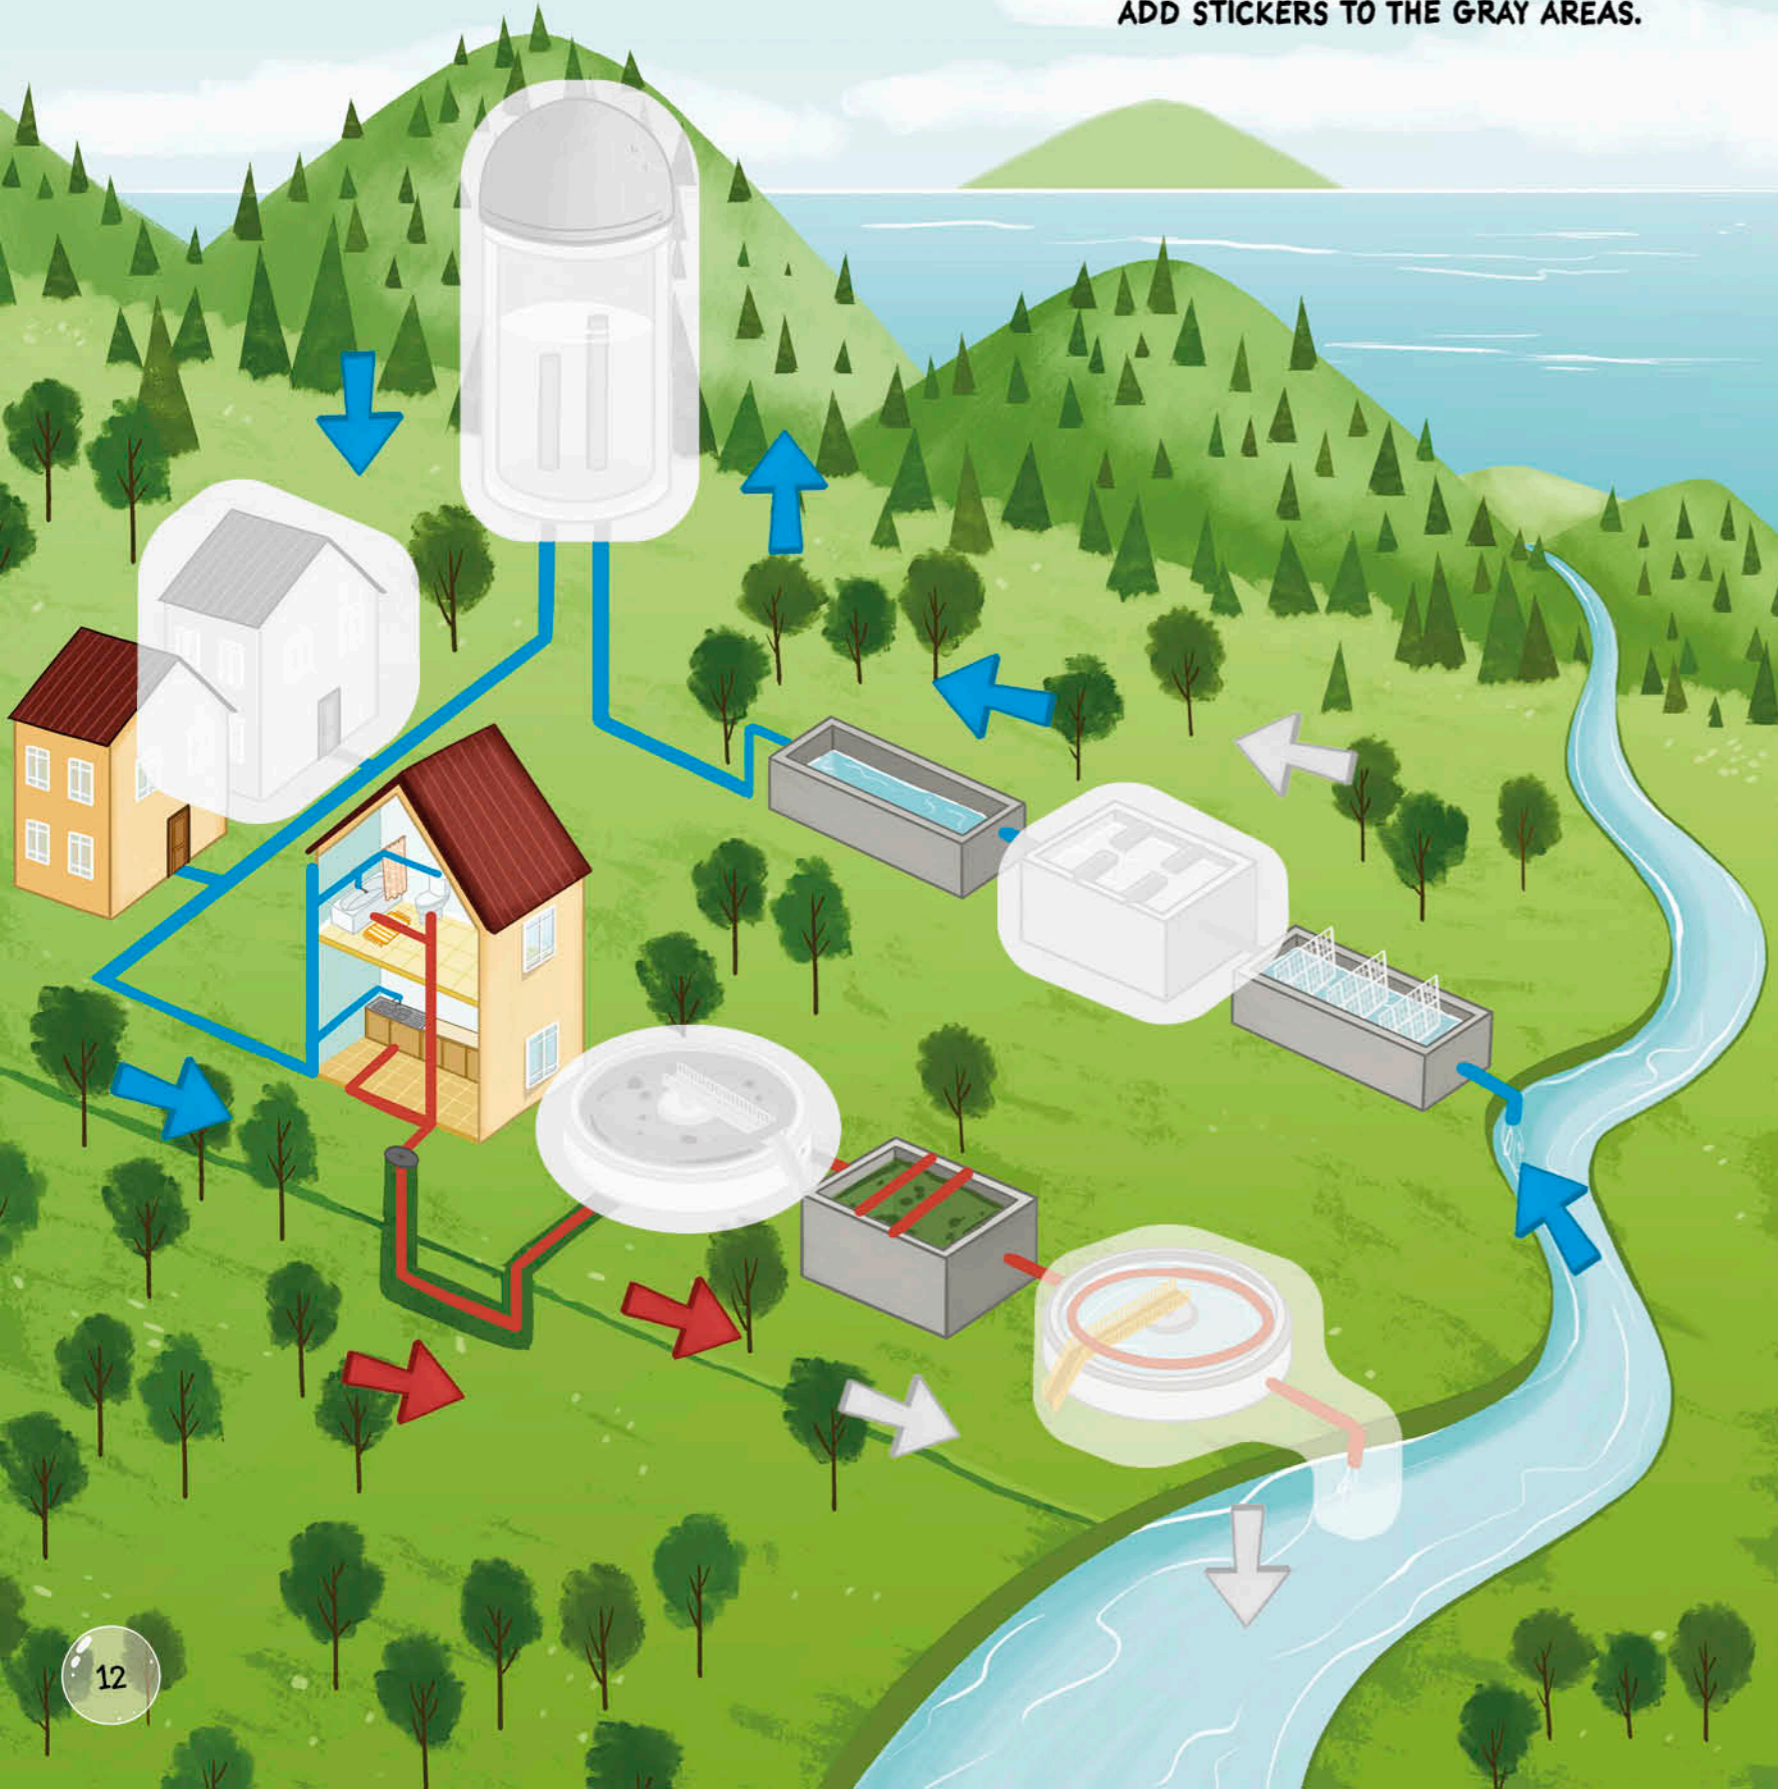

Drop and Droplet are about to travel the world. Mommy Cloud will keep an eye on them from the sky.  
"Look how blue planet Earth is!" both little drops say excitedly.  
"It's full of water, that's why it's blue," their mother replies.

# WATER PURIFICATION PLANT

The drops drift downstream into town. "Soon, we'll be in people's homes, Drop. But first they've got to clean us up and make us drinkable. Look, this is the purifier."

FOLLOW THE PROCESS OF WATER PURIFICATION. THE BLUE ARROWS SHOWS YOU THE PATH OF CLEAN WATER GOING INTO THE HOUSEHOLD, AND THE RED ARROWS SHOW YOU HOW TO CLEAN THE WASTEWATER FROM THE HOUSEHOLD. ADD STICKERS TO THE GRAY AREAS.

# HOW IS WASTEWATER TREATED?

"First, we will go to the sedimentation tank, where the dirt will settle. Then the treatment plant will let us into the sand, which will catch other dirt. Then we will bathe in bubbles. We will do all this twice. Finally, they will treat us so that there are no germs between us."

# BACK IN THE SKY

"Mom, we had such a great water adventure!" Drop says excitedly.

"I'm so happy you're back with me, my little drops." Mom smiles.

"And what did you learn down on Earth?" Mom asks curiously.

"Well, for one thing, now I know that without water there would be no life!" Drop says proudly.

"And I learned a lot too," says Droplet. "I learned that..."

**EVERY DROP COUNTS! EVERYONE FINISHES TOGETHER.**
