So Teddy has hidden himself. Imagine that! At first, Toni is angry. 'How rude of him to hide from me like this!' she complains to Mum and Dad. Then she realizes that she has always enjoyed playing hide-and-seek. 'I think you need to open the cupboard on the **LEFT**, Toni,' Dad advises.

That's right, this is the cupboard on the **LEFT**. But you won't find me in it. Try the living room.

So Teddy has hidden himself. Imagine that! At first, Toni is angry. 'How rude of him to hide from me like this!' she complains to Mum and Dad. Then she realizes that she has always enjoyed playing hide-and-seek. 'I think you need to open the cupboard on the **LEFT**, Toni,' Dad advises.

This is the cupboard on the **RIGHT**, Toni. You need to look in the one on the left.

Toni runs into the living room and looks around. The window on the **RIGHT** is ajar. Could Teddy be hiding behind it?

This is the window on the **LEFT**.
You must find the one on the
RIGHT, Toni.

Toni runs into the living room
and looks around. The window
on the **RIGHT** is ajar.
Could Teddy be hiding behind it?

That's right, this is the
window on the **RIGHT**.
But I'm not here. Go on
to the kitchen.

Toni is standing in the middle of the kitchen, looking around. The sideboard on the **LEFT** appears not to be properly closed. Could Teddy be in it?

LEFT or RIGHT?

Where is Toni's teddy bear hiding? The little girl can't fall asleep without him! Fortunately, her cuddly friend has left her some mysterious messages. All you have to do is follow carefully in Teddy's footsteps and keep to the correct side. Is it on the left or on the right?

This interactive book with pull tabs teaches children to recognize sides through play, as well as training their attention. Even a simple search can be a great adventure!
