FIREFIGHTING VEHICLES
of the World!
FIREFIGHTING VEHICLES of the World

Honk! Honk!
Firefighters hurry
Helmets, gloves,
and a first aid kit!
Uh-oh! On a busy street in Tokyo,
Japan, cars have bumped into each
other. Luckily, everyone is okay!
? What tools help firefighters
get to work fast?

Vroom-vroom!
Firefighters speed in with a fire boat!
Splash! Slosh!
In Venice, Italy, high water floods the streets.
? What helps firefighters rescue people in high water?

Crackle! Whoosh!
In the Australian bush,
a fire spreads fast.
Rumble! Roar! Firefighters race
in with a powerful bushfire truck!
Where is all that water kept
to fight the fire?

Oh-no! Smoke in the jungle!
In the Brazilian rainforest,
firefighters need help
from the sky.
Whirr! Whirr! Firefighters fly in
with a firefighting helicopter!
*They lower gear
to the firefighters
below!*
? How do the firefighters
help from above?

With a super-tall ladder!

Wee-woo! All around the world, firefighters rush in to help. From busy city streets to winding canals, smoky forests, and high above the trees, firefighters use powerful vehicles and teamwork to keep people, animals, and places safe. Follow firefighters as they solve problems, lend a helping hand, and jump into action—one amazing vehicle at a time!
